

## *Some of our Projects that have been Published*

***Compass Kitchens has had their work written about by several well known lifestyle magazines.***

### **Tasmanian Oak, Thermafoil Doors & Stainless Steel**

This kitchen with its soft lines incorporated solid Tasmanian Oak timber tops as well as a cooktop area that has Stainless Steel Benchtops and Splashbacks. We also made matching Stainless trim for the old Boiler hearth where our client also installed a Gas heater. This kitchen in Prospect South Australia featured in the popular *Country Home Ideas Yearbook*; in their annual kitchen feature.

### **Granite Benchtops & Thermafoil Doors**

This stylish kitchen incorporated many features into a tight space. Including two pantries, which flank and centre the fridge; these pantries house 14 custom drawers to suit the customers pantry storage needs. This kitchen used Miele appliances, including a hidden integrated Miele dishwasher, and a ducted retractable rangehood. Making good use of all the space, we introduced an appliance centre, a 700mm deep Granite working Benchtop and another 13 storage drawers, making it twenty-seven drawers in total. This Galley kitchen featured in the *Country Home Ideas Magazine*, the *Country Decorator Magazine* and made it

into the *Country Home Ideas Yearbook*.

### **Tasmanian Oak Benctops & Sage Thermafoil Doors**

This particular kitchen first drew the interest of the "*Our House Magazine*", featuring in their Annual. With its timeless appeal our kitchen was quickly picked up by other magazine publishers to feature in the "*Classic Kitchens Magazine*" and "*The Very Best Kitchens & Bathrooms*" Magazine. Following over time with another three page feature in "*Modern Kitchens and Bathrooms Magazine*" and a four page feature in the Magazine "*Innovative Kitchens & Bathrooms*", demonstrating the broad appeal of these quality material finishes when mixed with good design.
